

Thomas Powell

MGK Insect Control Solutions

Biography

Thomas (Tommy) Powell joined MGK Insect Control Solutions as a Technical Field Specialist in 2016. He received his B.S. and M.S. degrees in Urban Entomology from the University of Florida.

Prior to working at MGK, Tommy worked sixteen years in the pest management industry. He worked as Technical Director for three top 100 pest control companies. He also held the position of Branch Manager for one of those companies for five years. That experience in operations changed his perspective on the pest management industry, as he realized the value of strong training programs for operators.
