

Dr. Chris Keefer Ph. D., BCE

BIOGRAPHY

Chris started in the pest management industry in 1994 where he worked as a technician for 10 years for a pest management firm. He has been a Board Certified Entomologist through the Entomological Society of America since 2005.

Chris worked for Texas A&M under the supervision of Dr. Roger Gold as a technician/research scientist for 10 years where he received his Master of Science from Texas A&M University in Entomology. Chris's work involved the uptake, translocation, and dissipation of termiticides in urban environments. Chris also received his Ph.D. from Texas A&M University in Entomology, his dissertation work was on the dark rover ant, *Brachymyrmex patagonicus*.

Chris has a Texas Pest Control License in Pest, Termite, and Lawn and Ornamental. Currently he is the Technical Service Manager for Syngenta for the southeastern United States.
