

BIOGRAPHY

Paul Mitola

**Environmental
Consultant**

FDACS

After 22+ years in the Pest Management Industry, including ten years owning a P.C. business and six years with the University of Florida's pest control auxiliary. In January 2003 I accepted a position as Environmental Specialist II with the Florida Department of Agriculture and Consumer Services (FDACS) My goal was to educate the pest control industry. "The best regulation is education"

In 2009 accepted a new position (ES III) as the Field Training Coordinator. I am currently involved with Pest Management University a training facility in Apopka, Florida, as an instructor. I also provide training for many pest control organizations throughout Florida. In July 2015 accepted a position as Environmental Consultant.
